Appendix D	Comment Cards

## 1. INTRODUCTION

In November 2015, the Northern Indiana Commuter Transportation District (NICTD) hosted four workshops to update the public and public officials and agencies on the West Lake Corridor Project, as well as provide an opportunity for attendees to comment on the proposed station locations, maintenance facility locations, layover track, and alignment. This report documents the details of the workshops and summarizes the comments, feedback, and input received from the agencies and public.

## 2. WORKSHOP OUTREACH/FORMAT

### 2.1 Public Officials and Agency Workshop

The Project Team held a workshop with public officials and local, state, and federal agencies on November 9, 2015. The time, location, and number of attendees are as follows:

- **Time:** Monday, November 9, 2015, 2:00 PM to 4:00 PM
- **Location:** Munster Town Hall, 1005 Ridge Road, Munster, Indiana
- **Attendees:** 26 signed in

NICTD invited the public officials and agencies listed below to attend. A copy of the invitation letter is provided in **Appendix A**.

#### Elected Officials

##### Federal

- Peter Visclosky, U. S. Congressman, 1<sup>st</sup> District
- Joe Donnelly, United States Senator

##### State

- Linda Lawson, Representative, Indiana House of Representatives – District 1
- Frank Mrvan, Indiana State Senator, District 1
- Rick Niemeyer, Representative, Indiana House of Representatives – District 11
- Lonnie Randolph, Indiana State Senator, District 2
- Maria Candelaria Reardon, Representative, Indiana House of Representatives, –12
- Hal Slager, Representative, Indiana House of Representatives – District 15
- Sue Landske, Indiana State Senator, District 6

##### County

- Roosevelt Allen, Jr., Commissioner, Lake County
- Eldon Strong, Councilman, Lake County

##### Town/City

##### **City of Hammond**

- Anthony Higgs, 3<sup>rd</sup> District Councilman
- Dan Spitale, Councilman at Large
- Homero Hinojosa, 6<sup>th</sup> District Councilman
- Jack Uylaki, 2<sup>nd</sup> District Councilman
- William Emerson, Councilman 4<sup>th</sup> District
- Janet Venecz, Councilman at Large
- Mark Kalwinski, 1<sup>st</sup> District Councilman
- Thomas M. McDermott Jr., Mayor
- Robert Markovich, Councilman at Large
- Michael Opinker, 5<sup>th</sup> District Councilman

**Town of Munster**

- Dustin Anderson, Town Manager
- John Edington, Council Member – Ward 2
- Andy Koultourides, Council Member – Ward 5
- Dave Nellans, Council Member – Ward 4
- John Reed, Council Member – Ward 1
- Joseph Simonetto, Council Member – Ward 3

**Town of Dyer**

- Debbie Astor, Town Council Member – Ward 5
- Joseph Cinko, Town Council President – Ward 1
- Jeff Dekker, Town Council Member – Ward 2
- Connee Trepton, Town Council Member – Ward 3
- Mary Tanis, Town Council Vice President – Ward 4

**Other Cities and Towns in the Project Area**

- Anthony Copeland, Mayor, City of East Chicago
- Stanley Dobosz, Councilman, Town of Griffith
- Michael Forbes, Councilman, Town of St John
- Karen Freeman-Wilson, Mayor, City of Gary
- Michael Griffin, Clerk-Treasurer, Town of Highland
- Eugene Guernsey, Clerk-Treasurer, Town of Merrillville
- Stephanie Kuziela, Clerk-Treasurer, Town of Chesterton
- Richard Ludlow, Councilman, Town of Schneider
- Ron Meer, Mayor, City of Michigan City
- Tom Schmitt, Councilman, Town of Schererville
- Greg Shook, Acting Town Administrator, Town of Lowell
- James Simmons, Councilman, Town of Winfield
- Brian Snedecor, Mayor, City of Hobart
- James Snyder, Mayor, City of Portage
- Keith Soderquist, Mayor, City of Lake Station
- Joseph Stahura, Mayor, City of Whiting
- Randy Niemeyer, Council President, Town of Cedar Lake
- Michelle Markiewicz Qualkinbush, Mayor, City of Calumet City
- Lori Reno, Clerk-Treasurer, Town of New Chicago
- Laura Sullivan, Clerk-Treasurer, Town of Beverly Shores
- David Uran, Mayor, City of Crown Point

**Federal, State, and Local Agency Officials****Federal**

- Andréa Martin, Environmental Protection Specialist, Federal Railroad Administration
- Paul Leffler, Chicago District Regulatory Branch, Project Manager, U.S. Army Corps of Engineers
- Virginia Laszewski, Environmental Scientist, US Environmental Protection Agency, Region 5
- Elizabeth McCloskey, Biologist, U.S. Fish and Wildlife Service, Northern Indiana

**State**

- Robert Bronson, Section Chief, Indiana Department of Natural Resources (INDNR), Division of Outdoor Resources
- John Carr, Team Leader, Historic Structures Reviewers, INDNR, Division of Historic Preservation and Archaeology
- Rachel Leibowitz, Deputy State Historic Preservation Officer, Illinois Historic Preservation Agency
- Christie Stanifer, Environmental Coordinator, INDNR, Division of Fish and Wildlife
- Wade Tharp, Archaeologist, INDNR, Division of Historic Preservation and Archaeology
- Tiffany Tolbert, Director Northwest Field Office, Indiana Landmarks
- Carl Wodrich, Director of Ecological Services, INDNR
- Mitchell K. Zoll, Deputy State Historic Preservation Officer, INDNR, Division of Historic Preservation and Archaeology
- Cynthia Stacy, Special Projects Manager, Peoria Tribe of Indians of Oklahoma

**Regional**

- Randall Blankenhorn, Executive Director, Chicago Metropolitan Agency for Planning
- Peter Fahrenwald, Manager, Regional and Corridor Planning, Northeastern Illinois Regional Transportation Authority
- Steve Strains, Director of Planning, Northwestern Indiana Regional Planning Commission
- Sherri Ziller, Chief Operating Officer, Northwest Indiana Regional Development Authority

**County**

- Bill Emerson, Jr., Surveyor, Lake County
- Toni Preckwinkle, President, Cook County Board
- Maria Choca Urban, Deputy Chief Administrative Officer, Cook County Bureau of Administration
- Bruce Woods, President, Lake County Historical Society
- John Yohan, Superintendent, Cook County Department of Transportation and Highways

**City/Town**

- Rick Eberly, Town Administrator, Town of Dyer
- Steve Kil, Town Manager, Town of St. John
- David Kralik, Department Head/Long Range Planning, Metra
- Richard Lytle, Hammond Historical Society
- Carole Morey, Chief Planning Officer, Chicago Transit Authority
- Brian Poland, AICP, Director of City Planning, City of Hammond
- Jeffrey Sriver, Director of Transportation Planning and Programming, Chicago Department of Transportation

The Project Team presented the project with slides that described the Federal environmental process, the project, and changes that have occurred since the project Scoping Meetings were held in October 2014. The presentation was followed by an open session for questions and answers. In this segment of the workshop, two verbal comments were received. These were, how the project would be funded and if freight would use the project corridor. In addition to poster display boards in the room, participants were provided with a project fact sheet and a list of frequently asked questions. Copies of meeting materials are provided in **Appendix B** and on the Project website (<http://www.nictdwestlake.com/>), and copies the agency sign-in sheets are found in **Appendix C**.

## **2.2 Public Workshops**

The Project Team conducted the workshops for the public at three locations in the project corridor. **Table 2-1** lists the locations, times, and number of attendees at each workshop that was held. Each of the locations was ADA accessible, centrally located, and provided ample access for free parking. The workshops were intended to inform the public of the environmental process, the proposed project, and changes to the project since the project scoping meetings were held in October 2014.

**Table 2-1: Workshop Times, Locations, and Number of Attendees**

Meeting Type	Location	Time	Number of Attendees
Public Workshop	Protsman Elementary School 1121 Harrison Avenue, Dyer, IN	Monday, November 9, 2015, 6 p.m. – 8 p.m.	124
Public Workshop	Washington Irving Elementary School, 4727 Pine Avenue, Hammond, IN	Tuesday, November 10, 2015, 6 p.m. – 8 p.m.	44
Public Workshop	Eads Elementary School, 8000 Jackson Avenue, Munster, IN	Thursday, November 11, 2015, 6 p.m. – 8 p.m.	130

NICTD issued a press release to three study area newspapers, *The Times*, *Post Tribune*, and *Gary Crusader*. NICTD also posted an announcement of the meetings on the Project's website, posted flyers at South Shore Line (SSL) stations, sent postcards to residents in the Project Corridor, sent e-mail blasts to stakeholders listed in the Project database, and distributed project flyers. Copies of the press release, newspaper advertisements, and flyer can be found in **Appendix A**.

To maximize outreach to corridor stakeholders, the workshops were announced on the project website (<http://www.nictdwestlake.com/>), via three different e-mails to contacts on the project database, three different e-mails to organizations that represent environmental justice communities, and with direct phone calls to environmental justice leaders conducted at four different time periods leading up to the workshops. The Project Team contacted the following community and environmental justice organizations:

- Active Transportation Alliance
- Baptist Ministers
- Bishop Tavis Grant II
- Boys and Girls Club Northwest Indiana
- City of Gary
- City of Michigan City
- Civic Leaders
- Deaf Services, Inc. - Tradewinds
- Dyer Redevelopment Commission
- Gary Chamber of Commerce
- Gary Public Transportation Corporation
- Hammond Hispanic Community Committee
- Hammond Redevelopment Commission
- Hoffman Street Baptist Church
- Interfaith Clergy Council
- Vocational Rehabilitation Services of Gary
- Michigan City Housing Authority
- Michigan City Human Rights Department
- National Association for the Advancement of Colored People- Gary Chapter
- North Central Community Action Agencies
- Northwest Indiana Baptist Association
- Northwest Indiana Deaf and Hard of Hearing
- Northwest Indiana Hispanic Chamber of
- Northwest Indiana Federation of Interfaith
- Porter County Aging and Community Service
- Unity Foundation of LaPorte County
- Urban League of Northwest Indiana

The workshop format included a formal presentation followed by an informal open house. Four information stations provided visual display boards and maps defining the environmental process, project overview, proposed stations and maintenance facility locations, and alignment options under evaluation. The consultant team staffed each information area to receive attendee questions and provide individual responses. In addition to direct access to the project team, attendees were provided the opportunity to submit comments on site, with the option of also providing comments via the project website, mail to the NICTD office, email ([project.email@nictdwestlake.com](mailto:project.email@nictdwestlake.com)), or verbally via the automated project phone line (219-250-2920). Handouts provided to attendees included a project fact sheet and frequently asked questions (see **Appendix B**). The workshops were well attended, with 324 attendees.

Those workshop attendees that indicated how they heard about the meeting provided the following information sources:

- Newspaper 43%
- Project website 16%
- Email 11%
- Flyer 4%
- Postcard 2%<sup>1</sup>
- Other 24%<sup>2</sup>

Newspaper story coverage was the dominant source of meeting announcement for these attendees. NICTD issued a press release in advance of the meetings to encourage media coverage. This would provide an opportunity to clarify project development status and to create a channel to convey ongoing information to the public. Given the 24 percent reference to word of mouth information exchange, which historically does not provide consistent, accurate information, newspapers could represent an increased communication opportunity for the project.

### **3. COMMENT SUMMARY**

As previously stated, NICTD provided the public with multiple opportunities to submit comments. These were offered via online submission through the Project e-mail or website online comment section, by mail to the NICTD Project office, via the automated phone line, and through comment cards that were provided at the workshops. In total, 16 public comments were received through these outreach methods.

Of the 16 comments received, 15 were received onsite and one was mailed to the NICTD office. Within this total, five were supportive of the project; seven provided input comments for planning consideration; and four were in opposition of the project. A summary of the written comments received follows. Those in favor of the project accept the value proposition for economic development; those against do not. Comments on the project generally fell into the following categories:

- Economic growth
- Improved linkages to jobs
- Increased transportation connections
- Improved access
- Impacts to property values
- Acquisitions and displacements
- Cost value
- Impacts on residential property values
- Traffic in neighborhoods
- Increased noise levels
- Safety concerns

Comments that provided project input considerations asked about the following:

- Accommodations for people with disabilities

---

<sup>1</sup> The postcard option was cited by respondents, but did not represent one of the announcement options utilized for this meeting.

<sup>2</sup> This included word of mouth through friends and neighbors, Facebook, text, and radio.

- Transfers between trains
- Coordination with Munster and Dyer to define the possible extension of Main Street west to IL 394
- Station Design and locations
- Noise mitigation evaluations given increased train traffic
- Evaluations for increased traffic impacts on neighborhoods
- Maintenance Yard Location evaluation
- Property acquisition process

## **APPENDIX A**

### **Meeting Announcements**

NORTHERN INDIANA  
COMMUTER TRANSPORTATION DISTRICT

33 E. U.S. HIGHWAY 12 • CHESTERTON, IN 46304-3514

PHONE: 219.926.5744 • FAX: 219.929.4438

October 19, 2015

Dear Public and Agency Officials:

**RE: West Lake Corridor Project Public Workshops**

The Northern Indiana Commuter Transportation District (NICTD) is hosting three public workshops and one workshop for public officials and agencies. **You are invited to attend the public officials and agency meeting that will be held Monday, November 9, 2015, 2 p.m. – 4 p.m. at the Munster Town Hall, 1005 Ridge Road, Munster, Indiana 46321.**

The purpose of these workshops is to provide an opportunity for our AECOM consultants to update attendees on project status, proposed stations and facilities, and next steps in the evaluation process. This workshop format will enable NICTD to gain a better understanding on issues and concerns through a facilitated, interactive setting. For your reference, should your schedule permit, the public workshops will be held:

- Monday, November 9, 2015, 6 p.m. – 8 p.m.  
Protsman Elementary School  
1121 Harrison Avenue  
Dyer, Indiana 46311
- Tuesday, November 10, 2015, 6 p.m. – 8 p.m.  
Washington Irving Elementary School  
4727 Pine Avenue  
Hammond, Indiana 46327
- Thursday, November 12, 2015, 6 p.m. – 8 p.m.  
Eads Elementary School  
8000 Jackson Avenue  
Munster, Indiana 46321

We would appreciate hearing if you're planning on attending the public officials and agency meeting in Munster on November 9. Please call Lisa Johnson at 219-926-5744 ext 308 or drop us a confirming note through our project website. We look forward to seeing you on the 9<sup>th</sup>. For more information on this project, we invite you to visit the project website, [www.nictdwestlake.com](http://www.nictdwestlake.com).

Sincerely,

John N. Parsons  
Project Manager

### **News Release For Immediate Release**

The Northern Commuter Transportation District (NICTD) will host three public workshops for the West Lake Corridor Project

CHESTERTON, IN... The Northern Indiana Commuter Transportation District (NICTD) will host three public workshops for the West Lake Corridor Project. This project is evaluating an extension of the South Shore Line between Munster/Dyer area and Metra's Millennium Station in Downtown Chicago. This expansion will more conveniently connect Northwest Indiana to the Chicago area. The purpose of these workshops is to provide an opportunity to update attendees on project status, proposed stations and facilities, and next steps in the evaluation process. The workshops will provide the opportunity for the public to ask questions about the project and provide input to NICTD about the planning process. Workshops will be held:

- Monday, November 9, 2015, 6 p.m. – 8 p.m., Protsman Elementary School, 1121 Harrison Avenue, Dyer, Indiana 46311
- Tuesday, November 10, 2015, 6 p.m. – 8 p.m., Washington Irving Elementary School, 4727 Pine Avenue, Hammond, Indiana 46327
- Thursday, November 12, 2015, 6 p.m. – 8 p.m., Eads Elementary School, 8000 Jackson Avenue, Munster, Indiana 46321.

Since the initiation of the environmental review process in 2014, the evaluation has moved forward, and the project is at a pivotal stage to consider input on station and facility locations. Additionally, the consultant team will be on-site to answer all questions. The public and interested stakeholders are encouraged to attend.

Michael Noland, NICTD General Manager stated, *"expanding economic opportunities for Northwest Indiana is directly linked to enhancing access to Chicago. This project provides that unique opportunity."*

For additional information on this project, visit the project website at [www.nictdwestlake.com](http://www.nictdwestlake.com).

## **NICTD West Lake Corridor Project**

### Newspaper Meeting Announcement

---

The Northern Indiana Commuter Transportation District (NICTD) will host three public workshops for the West Lake Corridor Project. These workshops will be held Monday, November 9, 2015, 6 p.m. – 8 p.m., Protsman Elementary School, 1121 Harrison Avenue, Dyer, Indiana 46311; Tuesday, November 10, 2015, 6 p.m. – 8 p.m., Washington Irving Elementary School, 4727 Pine Avenue, Hammond, Indiana 46327 and Thursday, November 12, 2015, 6 p.m. – 8 p.m., Eads Elementary School, 8000 Jackson Avenue, Munster, Indiana 46321.

The purpose of these workshops is to provide an opportunity to update attendees on project status, proposed stations and facilities, and next steps in the evaluation process. These workshops will provide the opportunity for attendees to provide input to NICTD on project planning.

Information on the project is available at the project website, [www.nictdwestlake.com](http://www.nictdwestlake.com).

## **NEWS & UPDATES**

### ***NICTD To Host Three Public Workshops for the West Lake Corridor Project***

You are invited to mark your calendar and join us!

The Northern Indiana Commuter Transportation District (NICTD) will hold three public workshops for the West Lake Corridor Project.

The purpose of these workshops is to provide an opportunity to update attendees on project status, proposed stations and facilities, and next steps in the evaluation process. The workshop format will enable attendees to gain a better understanding of the Project and to provide input on Project planning. The workshops will be held:

1. Monday, November 9, 2015, 6 p.m. – 8 p.m.  
Protsman Elementary School  
1121 Harrison Avenue, Dyer, Indiana 46311
2. Tuesday, November 10, 2015, 6 p.m. – 8 p.m.  
Washington Irving Elementary School  
4727 Pine Avenue, Hammond, Indiana 46327
3. Thursday, November 12, 2015, 6 p.m. – 8 p.m.  
Eads Elementary School  
8000 Jackson Avenue, Munster, Indiana 46321

## PUBLIC MEETING SCHEDULE

The Northern Indiana Commuter Transportation District (NICTD) will host three public workshops for the West Lake Corridor Project.

This project is evaluating an extension of the South Shore Line between the Munster/Dyer area and Metra's Millennium Station in Downtown Chicago. This extension will more conveniently connect Northwest Indiana to the Chicago area. The purpose of these workshops is to provide an opportunity to update attendees on project status, proposed stations and facilities, and next steps in the evaluation process.

These workshops will provide the opportunity for attendees to ask questions and provide input to the planning process. Workshops will be held:

- Monday, November 9, 2015, 6 p.m. – 8 p.m., Protsman Elementary School, 1121 Harrison Avenue, Dyer, Indiana 46311
- Tuesday, November 10, 2015, 6 p.m. – 8 p.m., Washington Irving Elementary School, 4727 Pine Avenue, Hammond, Indiana 46327
- Thursday, November 12, 2015, 6 p.m. – 8 p.m., Eads Elementary School, 8000 Jackson Avenue, Munster, Indiana 46321

We invite you to attend and to share this meeting announcement with others.

*Posted: 10-30-15*

## **APPENDIX B**

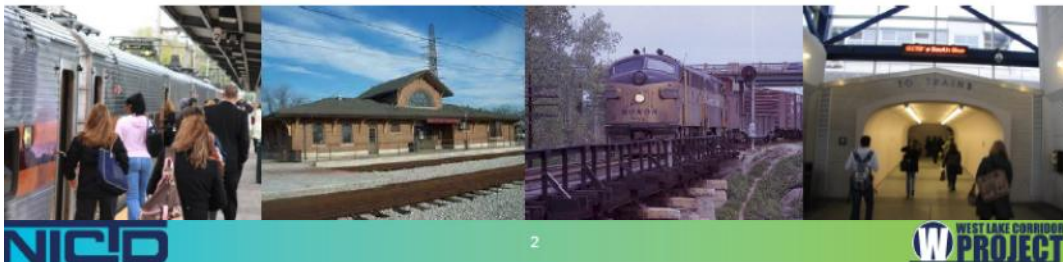

### **Meeting Materials**

## Purpose of Workshop

- Project Overview
- Share Information on Project Updates
- Seek Input on Alternatives and Options
- Define How You Can Be Involved

## Study Overview

- FTA and NICTD are Conducting an Environmental Review of the West Lake Corridor Project
- The Study includes Rail Based Service between the Munster/Dyer area and Metra's Millennium Station in Downtown Chicago
- The Study evaluates Alignments, Stations and Operating Facility Locations in the Corridor

## How Did We Get Here?

- |   |           |
|---|-----------|
| ▪ Regional Agency Conducted Initial Study         | 1989      |
| ▪ NICTD Completed <i>West Lake Corridor Study</i> | 2011      |
| ▪ Released <i>20-Year Strategic Business Plan</i> | June 2014 |
| ▪ <i>Began Environmental Review Process</i>       | Sept 2014 |

## West Lake Funding Sources

## What is Purpose for Project?

- Serve High-Growth Areas in Lake County
- Conveniently Connect to Chicago
- Establish Alternative to Driving
- Lower Commute Times and Costs
- Increase NICTD System Ridership
- Promote Economic Development
- Create Local Jobs
- Attract and Retain Younger Families
- Provide Valued Transportation Asset

## What is the Need for the Project?

- Increase Transportation Options for Accessing Chicago
- Reduce Travel Time from the Study Area to Chicago
- Reduce the Parking Burden at Existing Transit Stations
- Reduce Travel Costs

## Study Purpose

- Advance West Lake Corridor Project
  - Complete Draft Environmental Impact Statement (DEIS) in Compliance with NEPA
  - Select a Preferred Alternative (PA)
  - Enter Project Development under FTA New Starts

## West Lake Project Overview

- 9-Mile Extension of Existing South Shore Line (SSL)
- 24 Trains per Weekday and Weekend Service
- 4 Stations in Hammond, Munster, and Dyer
- Maintenance Facility
- Options for Alignment, Stations, Maintenance and Layover Facilities

9

## Alternative Options

- Indiana Harbor Belt (IHB) Alignment
- Hammond Design Option Alignment
- Station Options
  - Hammond
  - Munster
- Maintenance Facility
  - Hammond – 2 sites
  - Munster/Dyer
- Layover Facility
  - Munster/Dyer

10

## Project Updates

- Southern Terminal
- Railroad Requirements
- Mid-day / Weekend Service
- Conceptual Design
  - Vehicle Technology
  - Alignments Alternatives
  - Station Location Options
  - Maintenance Facility Location Options
  - Bike Trail Location in the Corridor

## Why So Many Design Options?

- Required to evaluate all feasible design options meeting the purpose and need of the project
- To consider and evaluate each alternative in a comparable level of detail
- Field work is included for all design options minimizing the need for additional investigation

## Vehicle Technology

- Existing South Shore Electric Trains

Hegewisch Station, SSL

## Stations

- Boarding Platforms
- Shelters
- Parking
- Multi-Modal Access

Dune Park Station, SSL

East Chicago Station, SSL

Denton County A-Train Maintenance Facility

## Maintenance Facility

- Shop Building for Maintenance of Vehicles
- Storage Tracks
- Parking and Support Facilities

## Layover Facility

- Welfare Building for Crew
- Storage Tracks for Overnight Layover
- Parking

Metra Electric District – Richton Layover

## Operations Facilities

If maintenance facility is here...

...layover facility is needed here

# National Environmental Policy Act

NEPA Umbrella  
Data Collection  
and Analysis

## Key Considerations:

- Transportation
- Land Use and Acquisitions
- Economic Development
- Neighborhoods and Community Facilities
- Environmental Justice
- Parks and Recreational
- Historic and Archeological
- Noise and Vibration
- Visual and Aesthetics
- Water and Ecological
- Farmlands
- Hazardous Materials
- Safety and Security
- Short-Term Construction

## What is a DEIS?

- Required for Federal Funding
- Discloses Impacts of the project and Proposed Mitigation Measures
- Improves Decision Making
- Serves as a Means for Public Comment
- Follows NEPA Requirements for Documentation
- Public Hearing is Part of the Required Process

```
graph LR; A[Scoping and Screening] --> B[WE ARE HERE Draft EIS]; B --> C[Final EIS Record of Decision]
```

**Scoping and Screening**

- Identify Issues
- Develop and screen alternatives

**WE ARE HERE**

**Draft EIS**

- Data Collection and Analysis
- Prepare Technical Reports
- Prepare Draft EIS on remaining alternatives
- Circulate Draft EIS
- Hold Public Hearings

**Final EIS Record of Decision**

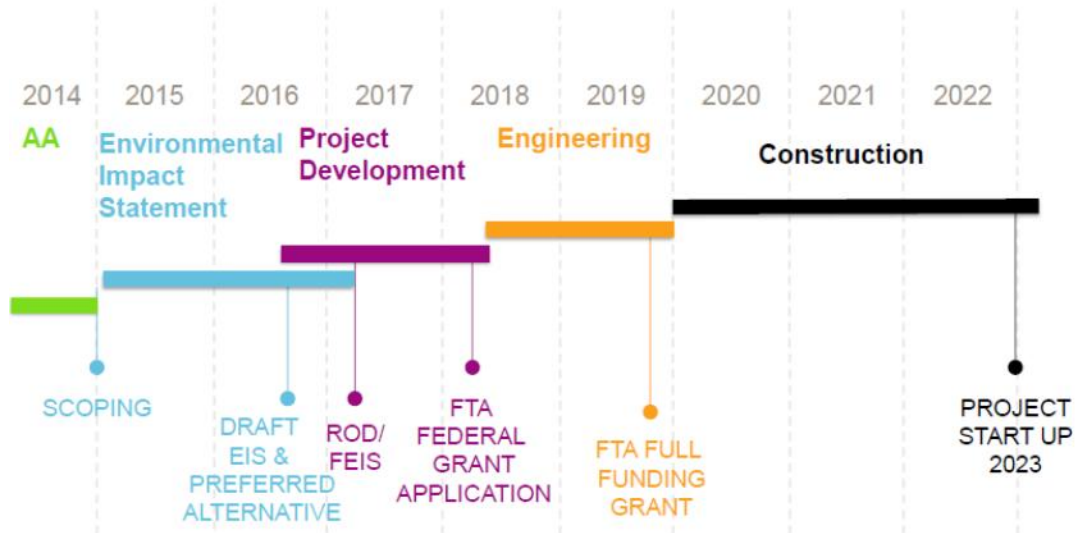

- Respond to comments
- Prepare Final EIS
- Prepare Record of Decision

- Federal Transit Administration
- Regional Development Authority
- Municipalities
- Railroads
- US Army Corps of Engineers
- State Historic Preservation Office

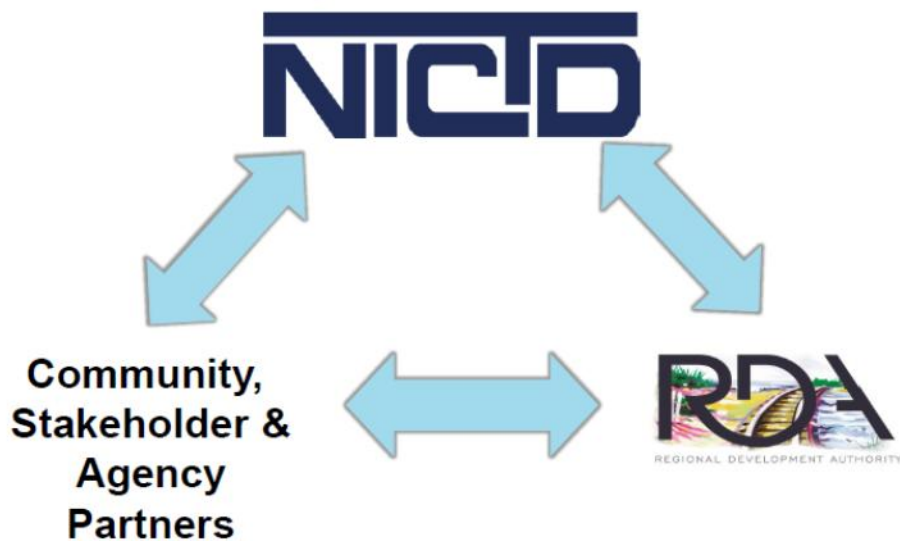

## West Lake Overall Project Schedule

## Key to Success: Partnerships

## Next Steps

- Public Workshops – November 2015
- Begin Project Development – Summer 2016
- DEIS Public Review – Fall 2016
- DEIS Public Hearings – Fall 2016

23

## How Can You Participate and Stay Informed

- Project Website: <http://www.nictdwestlake.com/>
- Email: [project.email@nictdwestlake.com](mailto:project.email@nictdwestlake.com)
- Call: 219-250-2920
- Mail: NICTD West Lake Corridor Project  
33 East U.S. Highway 12  
Chesterton, IN 46304

24

## Workshop Breakout Areas

1. Project Overview
2. Environmental Process
3. Alignment Options
4. Station and Facility Options

## Project Fact Sheet

**Project Overview:** Northern Indiana Commuter Transportation District's (NICTD) existing South Shore Line (SSL) provides a vital transportation link that connects Northwest Indiana to Chicago and Cook County, Illinois. The West Lake Corridor Project (Project) would involve a southern branch extension of NICTD's existing SSL to reach high-growth areas in Lake County, Indiana. The Project would expand NICTD's service coverage, improve mobility and accessibility, and stimulate local job creation and economic development opportunities for Lake County. The Project would include:

- 9-mile southern extension of SSL between Dyer and Hammond, Indiana;
- 12 trains per weekday between Dyer and Downtown Chicago;
- 4 stations in Hammond, Munster, and Dyer; and
- Maintenance facility to store and maintain vehicles.

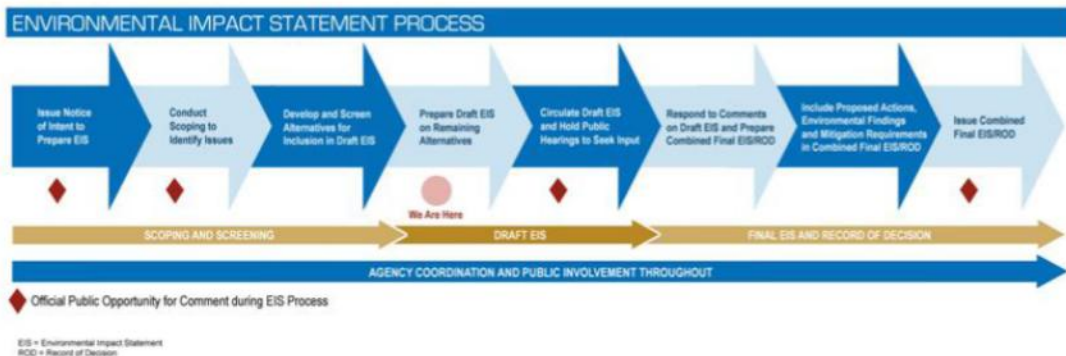

Design options for the Project route alignment, station locations, and maintenance facility sites are also being considered, which will be further refined working in close consultation with the public, agencies, and key stakeholders.

**Environmental Review Process:** To move this Project forward, NICTD and the Federal Transit Administration (FTA) have initiated the environmental review process in accordance with the National Environmental Policy Act (NEPA) and other regulatory requirements. An Environmental Impact Statement (EIS) is being prepared as part of this process to assess the potential impacts of the Project on the man-made and natural environments. This is a required step that NICTD must take to receive potential federal funding for the Project.

### Key Milestones:

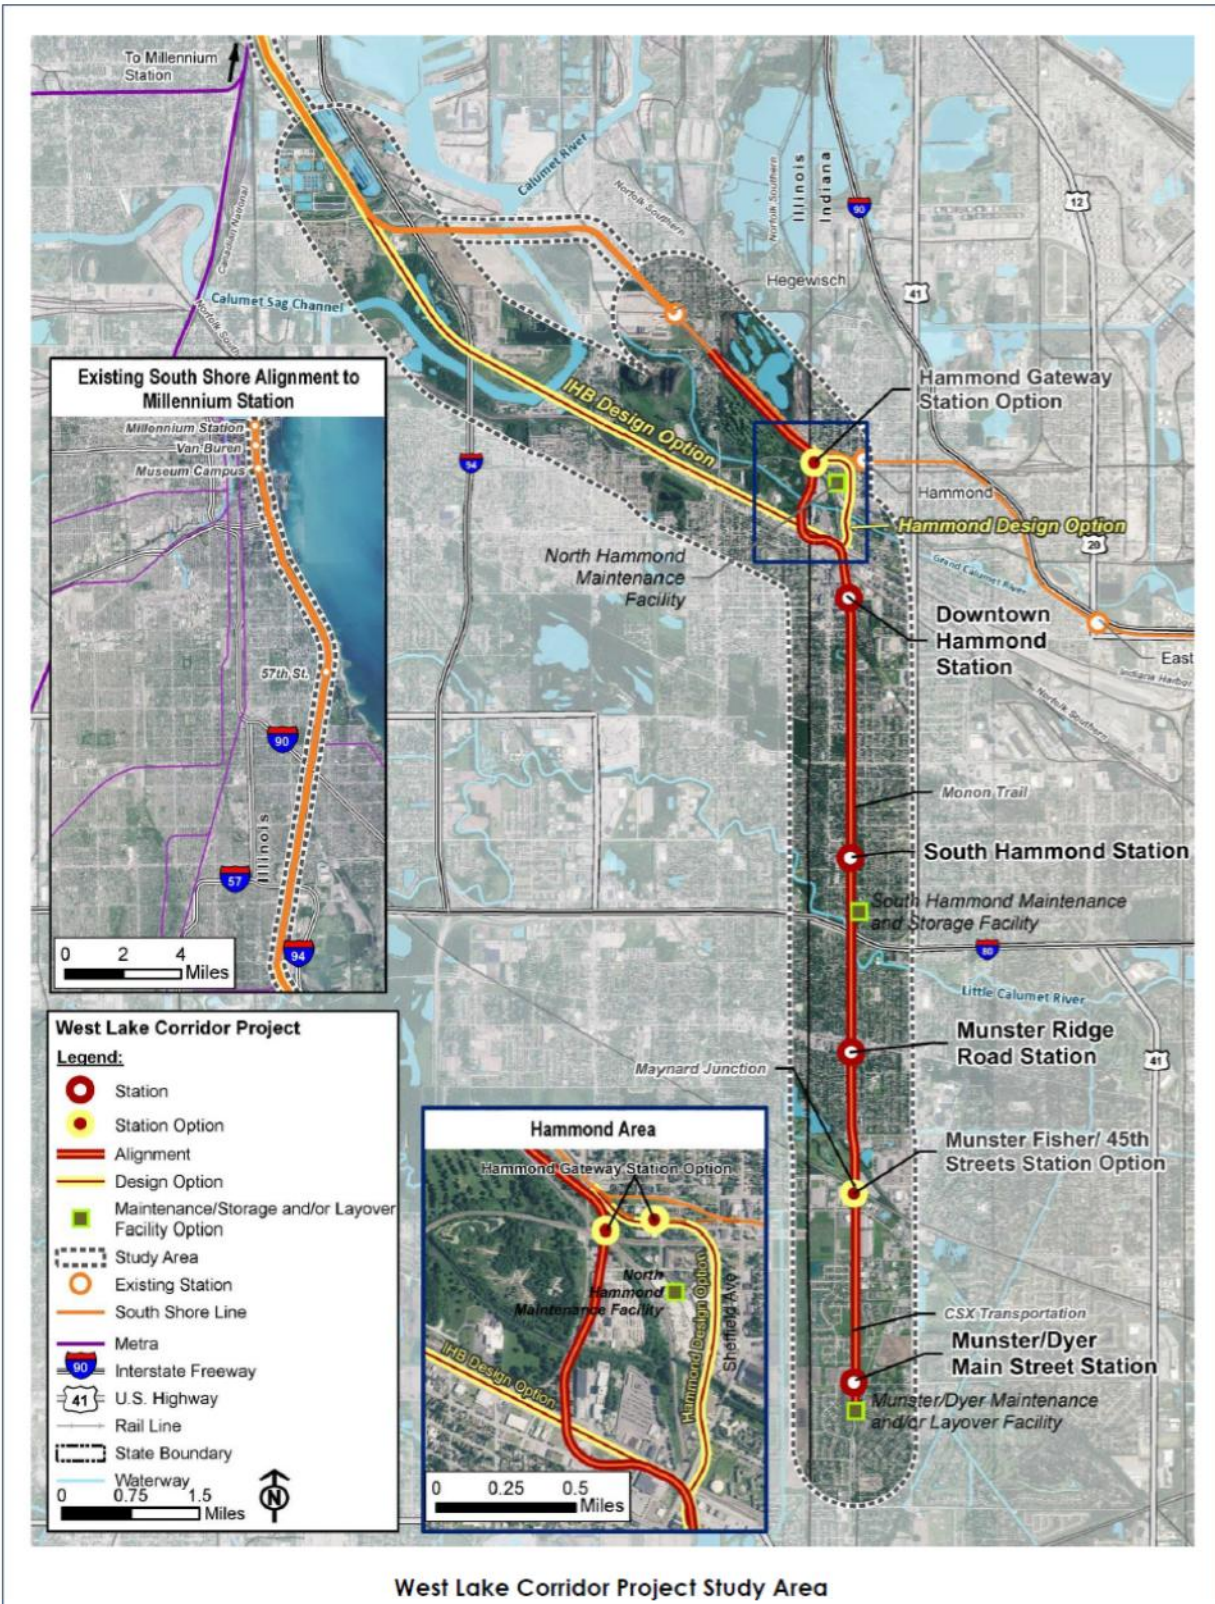

- |                                 |              |
|---------------------------------|--------------|
| • EIS Process:                  | 2014 to 2016 |
| • Engineering and Construction: | 2016 to 2023 |
| • Project Completion:           | 2023         |

### HOW TO REACH US:

NICTD West Lake Corridor Project, 33 East U.S. Highway 12, Chesterton, IN 46304

## NICTD West Lake Corridor Project WEBSITE FAQs Updated: October 30, 2015

---

**Q1. WHAT IS THE WEST LAKE CORRIDOR PROJECT?**

- A. The West Lake Corridor Project would be an approximate 9-mile southern extension of the Northern Indiana Commuter Transportation District's (NICTD) existing South Shore Line (SSL) between Dyer and Hammond, Indiana. Trains on the new branch line would connect with the existing SSL and ultimately Metra Electric District's (MED) line to the north. The proposed project would provide new transit service between Dyer, Indiana and Metra's Millennium Station in Downtown Chicago, Illinois, a total distance of approximately 30 miles.

**Q2. WHAT IS THE HISTORY OF THE WEST LAKE CORRIDOR PROJECT?**

- A. An expansion of the South Shore Line has long been recognized as a value to the Northwest Indiana regional community. As early as 1989, the Northwestern Indiana Regional Planning Commission (NIRPC) released a study that identified a South Shore extension as a potentially viable means to expand mass transit in the region. Since that time, multiple evaluations have occurred. In 2011, NICTD's *West Lake Corridor Study* concluded that a rail-based service between the Munster/Dyer area and Metra's Millennium Station in Downtown Chicago would best meet the public transportation needs of the study area. In June 2014, NICTD released its *20-Year Strategic Business Plan*, which highlighted the importance of a West Lake Corridor Project. In May 2014, NICTD initiated the environmental review process for the West Lake Corridor Project, a required next step to advance overall project development and secure federal funding.

**Q3. WHAT IS THE PURPOSE OF THE PROJECT AND WHAT BENEFITS CAN BE ACHIEVED FROM SUCCESSFUL COMPLETION?**

- A. The purpose of the West Lake Corridor Project is to provide a vital transportation link that connects Northwest Indiana to Chicago and Cook County, Illinois. NICTD is proposing the West Lake Corridor Project as a southern branch extension of the SSL route to reach high-growth areas in Lake County, Indiana. The project would expand NICTD's service coverage, improve mobility and accessibility, and stimulate local job creation and economic development opportunities for Lake County.

The benefits to be achieved from the Project are:

- Serve high-growth areas in central, southern, and western Lake County, Indiana
- Conveniently connect more Northwest Indiana residents to downtown Chicago jobs and major activity centers
- Establish a solid modal alternative between the two metropolitan regions other than driving

- Lower commuting travel times and costs
- Increase NICTD system ridership
- Promote economic development opportunities
- Create local jobs in Northwest Indiana
- Attract and retain families and younger residents
- Provide a valued transportation asset for use by all Northwest Indiana residents.

**Q4. WHAT STUDY IS CURRENTLY UNDERWAY?**

- A. The study currently underway involves the environmental review process for the West Lake Corridor Project in compliance with the National Environmental Policy Act (NEPA). Specifically, a Draft Environmental Impact Statement (DEIS) is being prepared for the Project, with the Federal Transit Administration (FTA) as the Federal Lead Agency and NICTD as the Local Project Sponsor responsible for implementing the Project.

The DEIS will involve a greater level of analysis of the project, including potential design options, ridership, costs, environmental resources, and other considerations than have been conducted to date. This will allow for more informed decisions about such project elements as the transit mode, route alignment, station locations, and other infrastructure improvements. The DEIS will conclude with the selection of a Preferred Alternative (PA).

NICTD would then develop a Financial Plan for the LPA, and submit an application to enter Project Development under FTA's New Starts funding program. These are all necessary steps in order for the project to qualify for potential federal funding in the future.

**Q5. HOW DO THE PUBLIC AND AGENCIES GET INVOLVED?**

- A. The public and agencies are encouraged to comment on the project and participate in the process through various methods, including the project website at [NICTDWestLake.com](http://NICTDWestLake.com). The project website has an online comment section to receive comments and questions, and various project documents will be made available to the public and agencies online.

Public meetings and hearings will also be held, along with individual stakeholder meetings and other meetings upon request. Each meeting will provide the opportunity to receive comments on the project and input into the process. Three rounds of public and agency review are planned during the DEIS phase:

- Scoping Period and Meeting(s):** Scoping is the first step in the environmental review process under NEPA. Scoping is an early and open process for the public and agencies to provide input on the scope, or range, of issues to be addressed and identify the significant issues related to the proposed action. Public and agency scoping meetings were held in fall 2014.
- Public Meeting(s):** The second round of public meeting(s) will be held in fall 2015. These meetings will serve to update the public and agencies on the project and receive input on

project elements such as integrating stations with the surrounding communities. The meetings will be held in a workshop format to maximize public participation.

- c. **Circulation of DEIS and Hearing(s):** The third round of input will involve the circulation of the DEIS in fall 2016. The public and agencies will have the opportunity to provide comments on the DEIS over a 45-day review period, during which time a public hearing(s) will be held to present the findings of the DEIS.

All three rounds of public and agency engagement provide opportunities for input throughout the NEPA environmental review process. The website comment section enables the public to provide ongoing input into the project.

**Q6. WHAT IS THE LENGTH OF TIME EXPECTED TO COMPLETE THIS STUDY AND OVERALL PROJECT?**

- A. Following are the key milestones and schedule for the environmental review process, as well as the overall project:

- a. **DEIS:** The Draft Environmental Impact Statement is expected to be completed in about 2 years, from fall 2014 to fall 2016.
- b. **FEIS/ROD:** Following the comment period on the DEIS, a Final Environmental Impact Statement (FEIS) would be prepared by the FTA and NICTD to complete the environmental review process. The FTA would also issue a Record of Decision (ROD) that states the proposed action, environmental findings, and mitigation requirements. The combined FEIS/ROD would take about 6 months to complete through 2016, depending on the level of comments received on the DEIS.
- c. **Engineering and Construction:** The environmental review process would then be followed by more detailed design, engineering, and construction from 2016 to 2023.
- d. **Project Completion:** Service start-up for the NICTD West Lake Corridor Project is targeted for 2023.

This schedule reflects the standard process for NEPA review and FTA's New Starts funding program, but dates are subject to change.

## **APPENDIX C**

### **Sign-In Sheets**

## PROJECT WORKSHOP FOR PUBLIC OFFICIALS AND AGENCIES

Meeting Purpose: To update public officials and agencies on the West Lake Corridor Project, to answer questions and receive feedback.

Location: Munster Town Hall, 1005 Ridge Road, Munster, IN 46321

Date: November 9, 2015

Time: 2:00pm-4:00pm.

#### COMMENTS:

I want the extension of the South Shore with  
a station in Munster at Ridge + Manor.

45th St is too close to Dyer border  
Use Ridge + Manor

#### COMMENTS:

There was a considerable amount of planning that has went into the design and concept of this project. The results were fabulous. This will be a great economic boon to the community. We are from western suburbs outside Chicago prior to moving to Mustang and having rail/commuter line added an estimated 10-15% to our property values. This is a very forward looking, progressive project that needs to go into action immediately.

#### COMMENTS:

My husband and I currently use Metra because there is not enough parking in Hammond. We are very much in favor of this project. We currently drive 30 minutes to reach the Metra station we use. Our train trip on the train to Millennium Station is 55 minutes after we park. I am 69 & my husband is 73. The train is very important to us as an alternative to driving to Chicago. I wish this had been built 20 years ago. Many people we know who work in the Loop and live in the Tri-Town area use Metra now. We no longer work but we go to the Loop for other activities. When we sold our house & moved to a condo, we seriously considered moving.

do Illinois because public transportation in the Dyer - Munster area. In the end we decided to stay in Dyer where we have lived since 1972. So we drive to Metra.

We tend to go to Chicago after rush hour & return after 9 PM. We use the train on weekends also. The shuttle service will be important to us.

Will your stations be handicapped accessible? We do not need it but many do.

We prefer electric trains.

Bike trail preservation is good.

I like options A & B best but I see no problem with C. The less homes destroyed - the better. The more parking the better.

Parking is very important. I like the Matteson Station on the Electric Metra line because the lot is big enough that it is never full. You pay when you leave. The money goes to the community. I know S. Shore lots are free but as a result, they are less secure.

We are very positive about the South Shore  
Extension and excited for the economic impact  
it will bring to this area. We feel it will be  
a very positive influence on development  
and will favorably affect on property value.

COMMENTS:

I'm not in agreement with this project.  
I suggest putting a gate up @ the West Lake  
subdivision entrance so that people  
cannot cut through from Illinois  
to get to the parking lot obviously.  
I do not like the plan that takes  
my property.

#### COMMENTS:

AGAINST THE PROJECT!!

I chose to leave the forum before it began—because it made me too sad, and I felt too hopeless, to stay and hear what ~~will~~ become of my neighborhood if this project goes through. NICD has made many glowing promises about the rail extension's results, and perhaps they are right, perhaps they are wrong. At any rate, I am not convinced. But I do know one thing ~~that~~ <sup>carried out</sup> that definitely will happen if the project ~~is~~ <sup>is</sup> carried out: a precious green space in South Hammond—the field that runs parallel to Lyman Avenue will be forever destroyed. This is a place where children play, where people walk their dogs in the quiet of morning and evening, and where beautiful wildflowers grow. It is very closely tied to quality of life for people and animals alike, and you can't put a price on quality of life! Accordingly, I cannot and will not support this project. Thank you for letting me "speak" on paper.

#### COMMENTS:

- NICAD does not care about public input. It has already decided what it wants to do and is bulldozing its aims over that of the general public.
- Put the money toward double-tracking the existing rail line instead of running a measly 9-mile stretch to ~~by~~ Dyer.
- There is too much congestion to get to the train on the far west side. It only increases, not decreases, commute time.
- Munster is gunning for this rail so it can tie in with their Calumet Ave. & 45th Avenue ~~of~~ Six. Because that's the case, Munster should pay for the extension & ~~not~~ ~~over~~ ~~and~~ ~~not~~ ~~in~~ Lake County to contribute →

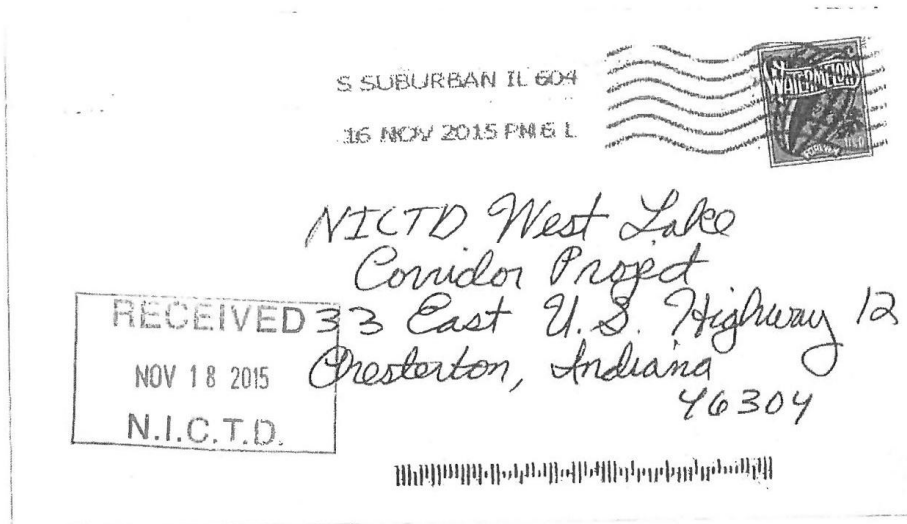

- Because everything has already been decided without public input, money must be changing hands under the table ~~and~~ and people are probably being bribed.
- The train should foremost be for public transit, not economic development, which should be an add-on or secondary consideration. Have Munster Community Hospital doctors formed a group to build a hotel/whatever so they can make money off the train?
- Just because people are coming in from Illinois is no reason to put a train right there when all can still ride the Metra Electric, which is not for. Anyway, people from Illinois will settle not just in Munster, Dyer, but they will come into the rest of the county so why have a train supporting a fixed population only?  
small
- Meetings on the train should be conducted so that people can stand up and verbalize their ~~opinion~~ opinions so all can hear. What are you South Shore and NICTD afraid of? Lack of support? This is morally wrong. How ~~do~~ officials sleep at night?
- This extension wastes time and money when there are better alternatives to this hair-brained existing idea.

NO TRAIN AT

ALL

NOISE LEVEL MUST  
BE ADDRESSED FOR  
RESIDENTS ALONG THE  
WEST SIDE OF FREDERICK AVE  
IN MUNSTER, IN.

THE TRAINS WILL HAVE TO  
BEGIN BRAKING BEFORE  
REACHING THE RIDGE ROAD  
STOP.

BRAKING NOISE FROM 24  
TRAINS A DAY WOULD AFFECT  
THE RESIDENTS QUALITY OF  
LIFE.

#### COMMENTS:

The Information Board Listing "Considerations" seems to me to favor the project. The type of vehicle power (electric) results in an analysis that of the 14 considerations this project comes out to the positive on 13 of the 14 factors. TRANSPORTATION, Land Use + Acquisitions, Economic development, neighborhood and community facilities, environmental justice, Parks + Recreation, Historical + archaeological, visual + aesthetics, water + ecological, Farmlands, safety + security, short term construction and even HAZARDOUS material. Only in the category of Noise + Vibration might (maybe) there is a negative when all considerations are made. If road grade crossings are protected, this may not be a negative.

**COMMENTS:**

I hope you consider putting only 1 station in Munster - that being the Dyer-Munster station. Having a second station at either Fisher or Ridge is not a good idea. The station in D-Hammond should be sufficient.

#### COMMENTS:

CONCERNS with the South Hammond station:

- 1) Increased traffic. 173rd + 169th bracket my immediate neighborhood. Adding 1000 vehicles on those roads will require traffic management changes. What are they?
- 2) Noise mitigation. Train horns are loud. What will be done to lessen the noise impact on the surrounding neighborhood?
- 3) Foot traffic. What will be done to help mitigate eliminate shortcuts through private property to the east of the station?
- 4) Maintenance Facility. Why are we considering adding an industrial maintenance yard to a residential neighborhood? Again, how will noise mitigation be handled?

Thank you,

See

#### COMMENTS:

How have you considered an efficient movement of people from one train to another at the Hammond Gateway station? Have you come up with a way to accommodate riders with physical disabilities?

Have you coordinated with Munster/Oyer on the possible extension of Main St west to IL-394? If this project were to go forward, how would that impact your proposed station design at Munster/Oyer?
